Adult Education and Enrichment at Vision Forward Association

Living With Retinitis Pigmentosa
Mondays, June 10 and 17; 4:30 to 5:30 pm

These sessions are designed for individuals experiencing vision loss due to Retinitis Pigmentosa (RP), as well as family members and friends who want to learn more about the eye disease.

On June 10th, Dr. Kimberly Stepien, MD, the Eye Institute and the Medical College of Wisconsin, will discuss the common causes, risk factors and symptoms of RP and Usher Syndrome.

On June 17th, listen to individuals with RP as they share their stories and strategies for adapting to and living successfully with the disease.
