Join us for a documentary showing

In the 1980s, three young people barely out of their teens began a movement that would change global health forever.

Bending the Arc tells their story.

Epic, yet intimate, the film is a compelling argument for the power of collective and personal vision and will to turn the tide of history.

4:00 - 6:20 p.m.

Urban Harvest Brewery

1024 S. 5th St., Milwaukee, WI 53204

This showing includes a guided discussion following the film.
