The Medical College of Wisconsin is conducting a research study to increase our understanding of the differences in brain function between depressed and non-depressed individuals with or without a family history of Alzheimer’s Disease. Qualified participants must be at least 40 years old. If you qualify, you will have memory and behavioral testing, and a research MRI brain scan. Compensation for time and travel will be provided.

For more information, please contact Stacy at 414-955-8970 or Dr. Goveas at 414-955-8983
