Things to Know About Health

♦ Health is more than health care.
♦ Health is tied to the distribution of resources.
♦ Racism imposes an added health burden.
♦ The choices we make are shaped by the choices we have.
♦ High demand + low control = chronic stress.
♦ Chronic stress can be toxic.
♦ Inequality - economic and political - is bad for our health.
♦ Social policy is health policy.
♦ Health inequalities are not natural.
♦ We all pay the price for poor health.

(Source: www.unnaturalcauses.org/ten_things.php)

“Of all the forms of inequality, injustice in health care is the most shocking and the most inhumane.”
Dr. Martin Luther King, Jr.
