**Transfer from Another Graduate School**

In general, applicants to a graduate program at MCW are only accepted upon completion of the degree program in which they are currently matriculated. In special circumstances students may apply for transfer into graduate programs at MCW after having only partially completed requirements for a graduate degree at another university. Transfer will be considered upon recommendation of the MCW graduate program if the following conditions are met:

- At the time of application, the academic status of the student at the other university is clearly documented and the reasons for wishing to transfer are clearly disclosed by the student.
- The student has provided three (3) letters of recommendation: one (1) from the mentor or research advisor, one (1) from the Graduate School Dean, and one (1) from someone who can appraise the student's work at his/her present school.

If transfer is allowed, then the following requirements apply:

- The program into which the student wishes to transfer will compare the course work completed at the other university with the curriculum required at MCW. That analysis will define which courses remain to be taken.
- The applicant must meet the following requirements of an MCW degree program regardless of whether any have been fulfilled elsewhere:
  - Two (2) semesters of full-time study.
  - Successful completion of the qualifying examination conducted by members of his/her program.
  - Successful completion of the thesis or dissertation under regulations which exist here.
  - Successful completion of all other requirements of the program.
