5 easy steps to **getting started** with Interprofessional Education (IPE)

1. **Build** the relationship with a partner institution. Invite the partner faculty for an MCW tour.

2. **Schedule** a common IPE date between institutions as early as possible for planning.

3. **Welcome** and introduce partner faculty and students as “our colleagues”.

4. **Mix** partner students with MCW students to create interdisciplinary groups.

5. **Debrief** and close the IPE session to allow all students to share and reflect on the IPE experience.
