At the Medical College of Wisconsin (MCW), we understand that choosing a medical school is a critical life decision that will set the course for you to pursue your calling in life and develop the skills to become a highly effective physician. We also know that it’s about finding the place that fits your learning style, your lifestyle, your financial needs and your career goals. Our MCW-Central Wisconsin campus could be the ideal fit for you if you’re interested in a high-caliber, fast-paced contemporary learning experience where you can complete medical school in less time, balanced with access to a great quality of life where year-round outdoor sports and activities are the norm.

As one of only a few medical schools in the country developing this type of program, MCW-Central Wisconsin may be the ideal campus for you if you are:

- Seeking a career in a primary care field, general surgery or psychiatry
- Excited to live, learn and work in a community setting
- Looking to be part of a smaller class, and learning alongside classmates with similar interests
- Interested in beginning your work as a physician one year sooner

MCW-Central Wisconsin features our Discovery curriculum, a calendar-efficient 134-week schedule designed to help you complete your medical school experience entirely in the region and in only 3 years. By reducing the number of electives and reducing the length of traditional medical school breaks, you will graduate more quickly and begin practicing medicine a year earlier, with only three-year tuition.
EARLY CLINICAL EXPERIENCE

At MCW-Central Wisconsin, you’ll start gaining clinical experience in your first semester at the region’s highest-quality hospitals and clinics. Over the course of your medical school experience, you’ll learn from leading physicians and be exposed to a vast array of patient cases – everything from routine exams to complex surgery. This allows you to integrate science with clinical medicine and put it into practice quickly.

SCHOLARLY PATHWAY - PHYSICIAN IN THE COMMUNITY

Your MCW-Central Wisconsin medical education experience will include participation in our Physician in the Community Scholarly Pathway, linking your medical education with the resources of our clinical partners and the needs of communities in Central Wisconsin. This experience is designed to cultivate your medical skills and interests and transform them into a lifelong quest for learning through your practice as a primary care physician, general surgeon or psychiatrist.

SMALLER CLASSES, MORE ONE-TO-ONE ATTENTION

MCW-Central Wisconsin’s administrative offices and classrooms will be housed at Aspirus Wausau Hospital. Introductory clinical skills training will take place at Aspirus and Northcentral Technical College’s state-of-the-art Center for Health Sciences and continue in the nationally recognized hospitals and clinics of our clinical partners. Our team-based learning model and smaller class sizes will provide an approachable and supportive learning environment throughout your medical education experience.

LIFE IN CENTRAL WISCONSIN

While living and learning in Central Wisconsin, you can enjoy the area’s natural beauty with acres of opportunities for world class camping, hiking, biking, skiing, kayaking and water sports. If you’re seeking arts and entertainment, Central Wisconsin’s rich cultural heritage and thriving arts community is certain to please even the most discerning tastes. You’ll also have the ability to build friendships with fellow students at the regional campuses and in Milwaukee through student organizations and small interactive classes.
