At the core of everything we do at the Medical College of Wisconsin (MCW) is the pursuit of new knowledge and the power of academic medicine. Bringing together the world’s top scientists and clinicians, inspired students and invested communities, we are driven to solve the most complex challenges in health and society. MCW is home to a diverse group of health and science leaders who collaborate to build a healthier world and a continuous cycle of life-changing knowledge.

Physicians and other healthcare professionals at MCW are rewriting the stories of patients and families with the latest research-based treatment options, cutting-edge clinical trials and collaborative, team-based care. Our clinicians work with teams of the world’s foremost scientists to pioneer new treatments, inspire and educate the next generation of healthcare providers and contribute to groundbreaking research. This is the power of academic medicine, harnessed to treat the most complex conditions and advance the health of entire communities.
Building a Healthier World Together

We believe the only way to build a healthier world is to build it together. We are committed to keeping people healthy in southeastern Wisconsin, as well as in communities across the state and around the globe. Our teams work in collaboration with hundreds of organizations to engage community members and address the most pressing issues affecting health in Wisconsin and beyond. MCW assists communities in advancing health and equity by developing collaborative research and patient care coalitions.
