## Pioneering Pathways to a Healthier World

**New knowledge changes everything, from a single life to an entire community.**

At the core of everything we do at the Medical College of Wisconsin (MCW) is the pursuit of new knowledge and the power of academic medicine. Bringing together the world's top scientists and clinicians, inspired students, and invested communities, we are driven to solve the most complex challenges in health and society. MCW is home to a diverse group of health and science leaders collaborating to build a healthier world and a continuous cycle of life-changing knowledge.

# Transforming Health Sciences Education

Tomorrow’s discoveries happen right here alongside the very people who bring those lessons to our students. MCW physicians, pharmacists and other healthcare professionals care for patients and conduct research while teaching the next generation of healthcare providers. Every bit of knowledge, and every advancement, provides our students with an unprecedented, collaborative learning environment, and helps improve the vitality and care of our communities. We strive for ever-increasing excellence in our models of teaching, and our innovative approach to health sciences education is improving access to healthcare where it is needed most.

# Accelerating Discovery

Our scientists lead biomedical and population health advancements through laboratory research, clinical trials, and community-engaged research. These studies are conducted in collaboration with local, national and global thought leaders, and innovators. Research drives discovery and generates new knowledge that can change everything, including how we define, diagnose, treat, and prevent disease, as well as how we train the next generation to push beyond the boundaries of what is possible.
