Pioneering Pathways to a Healthier World

We are a distinguished leader and innovator in the education and development of the next generation of physicians, scientists, pharmacists and health professionals. We discover and translate new knowledge in the biomedical and health sciences. We provide cutting-edge, collaborative patient care of the highest quality, and we improve the health of the communities we serve.

FACTS
Spring 2018

Education
Approximately 1,400 students (949 medical students, >370 graduate students, ~48 pharmacy students, and 27 Master of Science in Anesthesia students). Approximately 130 postdoctoral fellows. More than 700 physicians in residency training and more than 200 physicians in fellowship training. More than 11,100 physicians and 4,800 other health professionals participate in Continuing Medical Education-accredited activities offered annually.

Advancing a Healthier Wisconsin
More than $233M in awards to more than 380 initiatives dedicated to improving the health of the people of Wisconsin.*

Patient Care
Approximately 1,650 physicians, >800 nurse practitioners, physician assistants, and other healthcare practitioners. Care for approximately 540,000 patients of all ages annually at Children’s Hospital of Wisconsin, Froedtert Hospital, Zablocki VA Medical Center and many other hospitals and clinics in Eastern and Central Wisconsin.

Research
2nd Largest research institution in Wisconsin. $234M invested in research, teaching, training and related purposes in FY 2017*, which will lead to improved patient care and health outcomes. More than 2,800 research studies, including clinical trials.

Community Engagement
MCW faculty and staff are engaged in more than 2,400 community outreach activities, involving more than 600 community partner organizations, to advance the health of people and communities throughout metro Milwaukee and Wisconsin.

Private Support
More than 7,150 philanthropic gifts in FY 2017* providing $68.2M for cutting-edge research, innovative medical education and compassionate patient care benefitting 540,000 patients and investing in 1,400 students.

*As of December 2017

*MCW’s Fiscal Year 2017 was from July 1, 2016 through June 30, 2017

Our Vision & Mission
Learn more at mcw.edu
The MCW School of Medicine in Milwaukee and campuses in Green Bay and Central Wisconsin provide an innovative, rigorous and immersive curriculum that prepares our graduates with a deep understanding of the healthcare needs in their communities.

- The Milwaukee campus offers a four-year curriculum with opportunities to explore a wide variety of Scholarly Pathways that allow students to individualize their medical training while considering career paths of interest.
- The Green Bay and Central Wisconsin campuses provide a calendar-efficient, three-year curriculum, ideally suited for students seeking a career with a primary care emphasis. Students live and learn immersed in the communities where they are likely to practice. MCW–Green Bay opened in July 2015 and its first class will graduate in 2018. MCW–Central Wisconsin opened in July 2016.
- A new Anesthesiologist Assistant program (MSA) matriculated students in August 2016 in Milwaukee.

MCW is working to ensure that a larger proportion of our graduates stay in Wisconsin to practice after graduation. Our School of Medicine will help provide future physicians in communities across the state, particularly in areas where doctors are needed the most.

**School of Medicine Campuses**

**Our Partners in Wisconsin**

**Central WI Region**
- Aspirus Inc.
- Ascension
- Northcentral Technical College
- UW – Marathon County
- UW – Marshfield/Wood County
- UW – Stevens Point

**Green Bay Region**
- Bellin College
- Bellin Health
- Hospital Sisters Health System Eastern Wisconsin Division
- Zablocki VA Medical Center
- Northeast Wisconsin Technical College
- Prevea Health
- St. Norbert College
- UW – Green Bay
- BloodCenter of Wisconsin
- Children’s Hospital of Wisconsin
- Froedtert Hospital
- Zablocki VA Medical Center
- Additional hospitals, clinics and organizations that provide clinical experience for medical students

**Accreditation**

- The Medical College of Wisconsin is accredited by the Higher Learning Commission (HLC).*
- The Liaison Committee on Medical Education (LCME) awarded full, eight-year accreditation in 2011, the maximum period of accreditation.**
- The Accreditation Council for Graduate Medical Education has accredited residency and fellowship training in 94 medical specialties and subspecialties.
- The Accreditation Council for Continuing Medical Education awarded Accreditation with Commendation, the highest status of reaccreditation, in 2014 for six years.

*The HLC is the regional accrediting body for institutions of higher education in the North Central US.
**The LCME is the accrediting body of all U.S. allopathic (MD-granting) medical schools.

The MCW School of Pharmacy is preparing the next generation of pharmacists to be healthcare providers, ready to engage in patient-centered care in a multitude of practice settings, including primary care.

- The goal of the MCW School of Pharmacy is to address the growing need for primary care services, particularly in medically underserved communities. We aim to create team-based practice models that leverage the role of the pharmacist to deliver cost-effective care and achieve better health outcomes for patients.
- The School of Pharmacy is transforming pharmacy education with an innovative three-year Doctor of Pharmacy (PharmD) curriculum featuring cutting-edge technologies, early clinical experiences and interprofessional, team-based learning models.
- The PharmD program provides training in advanced practice skills, extensive exposure to a variety of clinical settings and world-class research in specialties such as precision medicine, pharmacogenomics, cancer and psychiatry. Our graduates will be fully prepared for the new demands and opportunities of a rapidly evolving profession, with the knowledge, skills and abilities to ensure high-quality healthcare continues for future generations in both urban and rural communities. The School of Pharmacy matriculated its inaugural class in 2017.

The Accreditation Council for Graduate Medical Education awarded full, eight-year accreditation in 2011, the maximum period of accreditation.**
Advancing Innovation
The Medical College of Wisconsin (MCW) is a major national research center and the second-largest research institution in Wisconsin.

Funding and Studies
- $234 million invested in research, teaching, training and related purposes in FY 2017*, which will lead to improved patient care and health outcomes. Includes:
  - $89.9 million from the National Institutes of Health (NIH)
  - $20.8 million from other federal agencies
  - $76 million from other external sponsors
  - $47.3 million from MCW institutional support in FY 2017
- MCW ranks in the top third of all U.S. medical schools in NIH research support.
- More than 2,800 research studies, including clinical trials, conducted in MCW’s FY 2017
*MCW’s Fiscal Year 2017 was from July 1, 2016 through June 30, 2017

Discoveries and Technology Transfer
- 50 new discoveries and inventions reported in MCW’s FY 2017
- Portfolio includes 232 technologies covered by more than 334 pending and issued US and foreign patents
- 56 technology license agreements with pharmaceutical, biotechnology, imaging, medical device and software companies
- Research and development affiliations with 41 campus institutions, healthcare organizations and government groups in Wisconsin and elsewhere
- MCW translates science into clinical care through technology development collaborations with industry, including startup ventures. Local startup companies include Brain Symphonics, Cardiopoietis, CMXTwenty, Essential Biotechnology, Imaging Biometrics, Organic Research Corporation, Prism Clinical Imaging, Protein Foundry, Somna Therapeutics, and TAI Diagnostics

A Major Employer
MCW employs: > 6,000 faculty and staff (~5,400 full-time equivalents)
Faculty: >1,500 full-time and ~300 part-time
Staff: 3,375 full-time / >400 part-time / >460 project and limited-term
Milwaukee Campus: ~5,125 faculty and staff work on the Milwaukee campus
Other locations: >800 faculty and staff work at 22 other healthcare facilities and other locations in Eastern and Central Wisconsin
Volunteer Faculty: More than 2,000 physicians from the community
Private Employer: MCW is the 7th largest private employer in metro Milwaukee

Centers and Institutes
- Cancer Center
- Cardiovascular Center
- Center for Imaging Research
- Center for International Blood and Marrow Transplant Research
- Center for Patient Care and Outcomes Research
- Clinical and Translational Science Institute of Southeast Wisconsin
- Comprehensive Injury Center
- Genomic Sciences and Precision Medicine Center
- Institute for Health & Equity
- The Robert D. and Patricia E. Kern Institute for the Transformation of Medical Education
- National Biomedical Electron Paramagnetic Resonance Center
- National Center for AIDS Intervention Research
- Neuroscience Research Center
- Wisconsin CIREN (Crash Injury Research and Engineering Network) Center

MCW research is accredited by the Association for the Accreditation of Human Research Protection Programs and the Association for Assessment and Accreditation of Laboratory Animal Care.

MCW Libraries as a Resource
- Provides information support and services to clinicians, researchers, educators, students and the community
- Maintains a virtual library of more than 11,900 electronic journals, 75 databases and more than 12,500 electronic books
- Located at MCW-Milwaukee, with clinical libraries at Children’s Hospital of Wisconsin and Froedtert Hospital
- Serves more than 19,000 people affiliated with the Medical College of Wisconsin, Froedtert Hospital and Children’s Hospital of Wisconsin, and others
- Open to the public, including patients and their families, and is a designated Resource Library of the National Network of Libraries of Medicine

Find more MCW Research Centers, Research Cores and Shared Resources: mcw.edu/resources
Harnessing the Power of Academic Medicine

- Approximately 1,650 Medical College of Wisconsin physicians
- More than 800 nurse practitioners, physician assistants and other healthcare practitioners
- Offering every medical specialty and subspecialty
- Caring for greater than 540,000 patients, representing approx. 2.6 million patient visits annually
- 439 MCW faculty physicians are listed in the 2017-2018 Best Doctors in America®, more than any other group practice or institution in Wisconsin

Providing Patient Care
- Adult patient care at 8 health systems, 12 hospitals and 50 clinics throughout Wisconsin through the Medical College Physicians group practice
- Pediatric specialty care at more than 40 specialty clinic locations through Children’s Specialty Group, a joint venture with Children’s Hospital of Wisconsin
- Primary and specialty care at 34 health centers and clinics through the Froedtert & the Medical College of Wisconsin Community Physicians, a joint clinical practice group with Froedtert Health

Clinical Practice Locations
MCW physicians and practitioners see patients at the Froedtert & MCW regional health network facilities, Children’s Hospital of Wisconsin facilities, and the Zablocki VA Medical Center – and many other hospitals and clinics in Eastern and Central Wisconsin.

The Froedtert & the Medical College of Wisconsin regional health network is a partnership between Froedtert Health and the Medical College of Wisconsin. The network operates eastern Wisconsin’s only academic medical center and adult Level I Trauma Center at Froedtert Hospital, a nationally ranked academic medical center. The Froedtert & MCW health network includes five hospitals, more than 1,600 physicians and nearly 40 health centers and clinics, and draws patients from throughout the Midwest and the nation.

Children’s Hospital of Wisconsin is the region’s only independent health care system dedicated solely to the health of children. The hospital, with locations in Milwaukee and Neenah, Wis., is ranked as one of the leading pediatric health care centers in the U.S. It is ranked in all 10 specialty areas in U.S. News & World Report’s 2017-18 Best Children’s Hospitals report. Children’s provides primary care, specialty care, urgent care, emergency care, community health services, foster and adoption services, child and family counseling, child advocacy services and family resource centers.

Clement J. Zablocki VA Medical Center is one of the busiest and most comprehensive centers operated by the Department of Veterans Affairs.

Other patient care locations. MCW physicians and practitioners provide primary and specialty care at many other hospitals and clinics in metro Milwaukee and Eastern and Central Wisconsin, including:

Fox Valley:
- Affinity Mercy Medical Center in Oshkosh and Affinity St. Elizabeth Hospital in Appleton, both part of Ascension; Agnesian St. Agnes Hospital in Fond du Lac; ThedaCare

Green Bay:
- Prevea Health and Hospital Sisters Health System, Women’s Specialty Care

Metro Milwaukee:
- Aurora Sinai Medical Center; Columbia St. Mary’s Hospital – Milwaukee and Ozaukee campuses and Wheaton Franciscan – Elmbrook, St. Francis and St. Joseph hospitals, all part of Ascension; Sixteenth Street Community Health Center

Northern Wisconsin:
- Aspirus in Wausau

Milwaukee Regional Medical Center (MRMC)
The MRMC comprises six organizations working in collaboration:
- Blood Research Institute of BloodCenter of Wisconsin
- Children’s Hospital of Wisconsin (306 beds)
- Curative Care
- Froedtert Hospital (585 beds)
- Medical College of Wisconsin
- Milwaukee County Behavioral Health Division

Milwaukee Regional Medical Center (MRMC)
The MRMC comprises six organizations working in collaboration:
- Blood Research Institute of BloodCenter of Wisconsin
- Children’s Hospital of Wisconsin (306 beds)
- Curative Care
- Froedtert Hospital (585 beds)
- Medical College of Wisconsin
- Milwaukee County Behavioral Health Division

Children’s Hospital of Wisconsin is the region’s only independent health care system dedicated solely to the health of children. The hospital, with locations in Milwaukee and Neenah, Wis., is ranked as one of the leading pediatric health care centers in the U.S. It is ranked in all 10 specialty areas in U.S. News & World Report’s 2017-18 Best Children’s Hospitals report. Children’s provides primary care, specialty care, urgent care, emergency care, community health services, foster and adoption services, child and family counseling, child advocacy services and family resource centers.

Building a Healthier World Together

The Medical College of Wisconsin’s community engagement mission focuses on building productive partnerships with communities in Wisconsin and beyond. Through these partnerships and the relationships that sustain them, MCW and its community collaborators work together to have a greater impact on addressing Wisconsin’s critical health needs.

MCW was recognized as a top institution in Community Engagement and Community Service as a finalist for the Spencer Foreman Award in 2017 from the Association of American Medical Colleges. MCW is the only medical school recognized among the top three institutions more than once in the past 11 years. MCW is also one of four medical schools nationwide to have received the Carnegie Community Engagement Classification.

MCW faculty are engaged in more than 2,400 community outreach activities, involving more than 600 community partner organizations, according to the MCW Office of Community Engagement’s recent faculty survey, which tracks activities in education, research, advocacy, clinical care, outreach, publications, events, and awards.

The MCW Community Engagement Core provides a broad range of services in community engagement to further develop MCW’s capacity to partner with communities. Current programs include the Health Science Square, Seed Grant Program, Lunch & Learn Roundtable Series and Mentoring Network. The Community Engagement Core is a primary resource and catalyst for community engagement projects for MCW and community partners, and impacts how effectively MCW addresses health equity and social disparities across Wisconsin.

AHW launched its first funded initiatives in community health, research, and education in 2004. The Endowment was established through funds resulting from the Blue Cross/Blue Shield United of Wisconsin’s conversion to a for-profit corporation.

- More than $233 million in awards to more than 380 initiatives dedicated to improving the health of the people of Wisconsin.*
- The Endowment’s initial value of $318.6 million now totals nearly $470 million through MCW’s stewardship.*

AHW invests in change-making initiatives through two complementary programs:

**Healthier Wisconsin Partnership Program**
More than 185 community-based health initiatives have received funding to advance strategic interventions, health promotions, and systems changes.

- Investing $20 million in an eight-year commitment to bring together community coalitions across the state to address mental and behavioral health needs in Wisconsin.
- Supporting partnerships to change policy and systems that influence health.
- Enhancing capacity for community health improvement.

**Research and Education Program**
More than 195 initiatives have received funding to advance basic, clinical, population and translational sciences for a healthier Wisconsin, as well as innovative education programs.

- Investing in new discoveries, such as pancreatic cancer research and developing new technologies and methods for treating cardiac abnormalities.
- Advancing innovation in education, such as the development of MCW’s School of Pharmacy and medical school campuses in Green Bay and Central Wisconsin, to help address the pharmacist and physician shortages in Wisconsin.
- Enhancing public engagement in health and sciences.

In addition, AHW launched its first cross-cutting initiative in 2017 that brings together the strengths of community, research and education to address breast and lung cancer disparities in Wisconsin.

**ADVANCING A HEALTHIER WISCONSIN (AHW) ENDOWMENT**

**BUILDING HEALTHIER COMMUNITIES**

*As of December 2017

[MCW.edu/community](http://mcw.edu/community)
The Clinical and Translational Science Institute of Southeast Wisconsin (CTSI) is dedicated to advancing the health of our community and our nation through research and discovery.

The CTSI’s consortium of eight Milwaukee institutions drives a collective commitment to share resources, technology, knowledge and expertise to work toward common goals in healthcare. This synergy avoids duplication and achieves better outcomes faster and more cost effectively.

- The CTSI is one of the nation’s 62 recipients of the National Institutes of Health’s Clinical and Translational Science Award.
- The CTSI’s borderless and collaborative enterprise expands the scope of translational research by generating and testing research hypotheses and implementing best practices that transform and enhance the development of therapeutic, diagnostic and preventive interventions.
- Special populations are integrated into the research environment, including underrepresented minorities, children, the elderly, and veterans.
- Pilot Awards stimulate promising new research projects and collaborative research teams across institutions.
- Integrating Research into Clinical Practice Awards improve the quality, patient experience, value and efficiency of healthcare delivery.
- The 500 STARS Initiative supports high school, undergraduate, and graduate students on a path to becoming translational scientists.
- CTSI produces and distributes CTSI Discovery Radio, a nationally recognized, monthly radio show and podcast series.
- CTSI’s free monthly Science Café events feature presentations and conversations focused on advancing community health through translational research.
- Community-Driven Research enables community members to inspire research topics and become part of a research team.

The eight CTSI consortium members are:
- BloodCenter of Wisconsin
- Children’s Hospital of Wisconsin
- Clement J. Zablocki VA Medical Center
- Froedtert Hospital
- Marquette University
- Medical College of Wisconsin
- Milwaukee School of Engineering
- University of Wisconsin-Milwaukee
