

Library Tip: Connecting to E-journals and E-resources

MCW Libraries has a wealth of medical and biosciences [e-journals](#), [e-Books](#), and [databases](#). You can access them anytime, anywhere, from any device from the [library homepage](#) or [library guides](#). [The process](#) is quick and easy.

When you click on a subscription resource (database, e-Book, or journal article) or the green Get it at MCW box, an [OpenAthens login](#) box will display.

Next, if you are employed by MCW or an MCW student, enter your MCW username and password.

*If you are an employee of Froedtert, Children's Wisconsin, or Versiti enter your OpenAthens credentials. If you don't already have an OpenAthens account, you can [register for one](#).

Then you are all set to view and use electronic resources!
