

Please join us for the

MHSA Cancer Health Fair

Saturday, June 3, 10 a.m. - Noon
Milwaukee High School of the Arts
2300 W. Highland Blvd.

- ▶ Over 25 student booths on cancer, prevention and wellness
- ▶ Games and interactive displays
- ▶ A focus on healthy living including nutrition, obesity prevention and physical activity
- ▶ Information and activities about cancer prevention
- ▶ Community partner participants

Presented by Mr. Berg's health students with support from the Medical College of Wisconsin Cancer Center, American Cancer Society, Kohl's Healthy Families and Milwaukee Public Schools

MILWAUKEE
PUBLIC SCHOOLS

Food

Hallway 1:

1. MCW registration
2. Cancer Disparities
3. Lung Cancer-Screening/Prevention
4. Tobacco- How is it linked to cancer?
5. Lung Cancer-Diagnosis/Treatment/Resources
6. US TOO- Prostate
7. Head and Neck Cancer
8. Prostate Cancer-Prevention/Screening
9. Cancer Center CTO
10. Breast Cancer- Advocacy
11. Breast Cancer- Diagnosis/Treatment
12. Skin Cancer
13. SisterPact
14. Leukemia
15. Pediatric Leukemia
16. Progressive Colon Screening
17. Testicular Cancer
18. Cervical Cancer
19. TBD
20. Canz4Cancer (Hallway 2)

Hallway 3:

21. The Effects of BPA and How to Avoid It
22. Are GMOs a Health Risk?
23. Alternatives to Carcinogenic Pesticides
24. Alternatives to Carcinogenic Herbicides
25. Contaminants in the Soil and How to Keep our Soil Healthy
26. Water Contamination and How to Keep our Water Clean
27. The Chemicals in Car Exhaust
28. The Effects of Volatile Organic Compounds and How to Avoid Them
29. Solvay Coke Plant
30. Lessons Learned from Love Canal
- 31-34 AP Biology Students
35. Stillwater's Cancer Support Services
- 36.- Alcohol and Cancer
37. Nutrition; Nutrition Guidelines
38. Safe and Sound
39. Obesity and Weight
40. Physical Activity
41. Physical Activity
42. i Care

PROGRAM SUPPORTERS & COMMUNITY PARTNERS

Kohl's Healthy Families & the American Cancer Society

This project was made possible by a generous contribution from Kohl's Healthy Families and the American Cancer Society. The American Cancer Society and Kohl's have partnered to bring you Kohl's Healthy Families, a program supporting families through prevention, screening, diagnosis, and treatment of cancer.

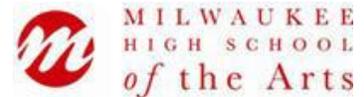

Medical College of Wisconsin Cancer Center

The MCW Cancer Center provides guidance and resources for the cancer prevention curriculum and health fair. MCW faculty and staff support Mr. Berg in the development of the project.

Milwaukee High School of the Arts

Mr. Berg and his students are the centerpiece of this project. Mr. Berg helped develop the cancer prevention and healthy lifestyle curriculum for his health classes and passionately and thoughtfully guided over 500 students through this program. He challenged and supported his students in the development of the projects you see here today. Thank you to MHSAA administration, faculty and staff for the willingness to pilot this project and for your cooperation at every turn.

Milwaukee Public Schools

Thank you to Milwaukee Public Schools for true partnership and support of this project and today's event. MPS has supported this project by supporting curriculum development, providing space and resources and through promotions and marketing of the health fair.

JUNE 3RD, 2017 HEALTH FAIR COMMUNITY PARTICIPANTS

- Canz4Cancer <http://www.canz4cancer.org/>
- iCare <http://www.icare-wi.org/>
- Medical College of Wisconsin Cancer Center- Clinical Trials Office <http://www.mcw.edu/Cancer-Center/Clinical-Trials.htm>
- Progressive Community Health Centers <http://www.progressivechc.org>
- Safe and Sound <http://www.safesound.org>
- Sister Pact <http://www.sisterpact.com>
- Stillwater's Cancer Support Services <http://www.stillwaterscenter.org>
- Us TOO <http://www.ustoo.org>

Learn how to reduce your cancer risk, improve your health as MPS students present cancer research, outreach and education with support from Medical College of Wisconsin Cancer Center

Over 500 students have participated in service learning partnership involving MPS Milwaukee High School of the Arts, the Medical College of Wisconsin Cancer Center, the American Cancer Society, and Kohl's Healthy Families.

Families and community members are invited to learn more about cancer prevention, ways to improve health and cancer-related racial disparities from students and experts as Milwaukee Public Schools' Milwaukee High School of the Arts (MHSA) hosts the second of two health fairs this weekend.

The MHSA service learning project has involved over 500 students at the school. The project is happening thanks to a grant from the American Cancer Society and Kohl's to the Medical College of Wisconsin (MCW) Cancer Center. Through the grant, MHSA students have been studying cancer and related racial disparities in Milwaukee, and hearing from MCW guest speakers.

Cancer and cancer-related mortality affect a disproportionate amount of African Americans in the region, including higher incidence and mortality rates for lung, liver and colon cancers and a higher breast cancer mortality rate for African-American women. Prostate cancer rates among African-American men are double those in the population as a whole.

The project helps address the fear and fatalism that many people experience when faced with cancer. Among the MHSA students who participated is Shenika Jackson, who learned a family member was diagnosed with cancer just as she started the project.

"At first, I didn't know how to feel or what to think or do," she recalled. "After I began the service learning project and learned more about treatment options, I regained hope," Shenika said.

Over one hundred students will present the results of their work and many local health organizations will join them in offering helpful health information at the fair set for Saturday, June 3rd, 2017 from 10:00 a.m. to noon at Milwaukee High School of the Arts, 2300 W. Highland Avenue, Milwaukee 53233.

Organizations sharing information with the community include: American Cancer Society, SisterPact, Progressive Health Centers, Canz4Cancer, MCW Cancer Center,

Milwaukee Public Schools, Safe and Sound, Stillwater's Cancer Support Services and Us TOO.

“Through the Kohl's Healthy Families program, which provides local families with resources to help prevent cancer and cope with a diagnosis, we're proud to support this project at Milwaukee High School of the Arts,” said Beth Brunner, health systems manager at the American Cancer Society. “By educating these students, we create hundreds of cancer health ambassadors who take the message of prevention, screening and early diagnosis to areas of our community that aren't always reached.”

The partnership is also one part of the Medical College of Wisconsin's work to expand awareness of cancer disparities and career opportunities in cancer research.

“We know that people who come from underserved communities face issues such as access to care, poverty, segregation – all of which are associated with risk factors such as smoking, obesity and sedentary activity,” said Dr. Melinda Stolley, associate director of prevention and control at the Medical College of Wisconsin Cancer Center. “As one of the largest institutions in Milwaukee, we have a responsibility to our community to create a southeastern Wisconsin that is healthier and more equitable.”
