Fax: (414) 955-6517
E-mail: bodydonation@mcw.edu

The laws of the State of Wisconsin permit us to accept the donation of bodies for use in medical education and medical research within our institution or in other scientific and educational institutions within or outside the state. If you choose to donate your body, research that may be done may include, but is not limited to, medical procedure education and/or bodily injury research. If you do not agree to be included in any of these types of education/research, please do not donate your body. When the studies are completed, the remains are cremated. We cannot furnish a report of our findings or the cause of death. **This is a non-profit program; therefore we require the donor's estate or family to pay any administrative fees and costs which include: transporting donor to the facility at the time of death, filing of death certificate, cremation permit and cremation.**

This form is to be signed by the donor **and** the next of kin (this term includes spouse) or representative. This document must be signed by the donor and the next of kin or representative **in the presence of two (2) witnesses**, who must sign this document in the donor's presence.

Return the completed forms (pages 2-4) by mail, fax or email (see information above) and keep a copy of the form for your files, or have a relative retain a copy for future reference.

The Medical College of Wisconsin has the right to refuse acceptance of a body for any reason; including, but not limited to: the circumstances do not permit the use of the body in accordance with the donor's wishes; it is deemed unsuitable for any of our programs (for example, obesity, recent surgery or communicable diseases, etc.). This document is only an application to our program and **you should have an alternate plan arranged** in the event that we cannot accept your body at the time of death.

We thank you for your interest and generosity in promoting medical education.
