

The Role of Neighborhood Deprivation on Diabetes Outcomes: A Mixed Methods Study (ND-MECH)

ABOUT THIS RESEARCH

This research study is for people who are 18 years old or older and who have type 2 diabetes. This study is a survey that only needs to be completed once. We will use the survey answers to learn more about how racism impacts people's health.

WHAT THIS RESEARCH STUDY INCLUDES

This research study includes one in-person visit. At this visit, you will fill out a survey that asks questions about how you live with your diabetes. We will also take a small amount of blood and take your blood pressure. All participants will be paid for completing the survey and lab component.

EXTRA COMPONENT

You may also be invited to an interview with the research doctor. Dr. Joni Williams will ask you questions about how you live with diabetes. This interview might take up to 90 minutes. This interview is optional. All invited participants will be paid for completing the interview and lab component.

➤ **CRITERIA FOR JOINING**

- 18 years old or older
- Have T2DM
