

MCW Center for Microbiome Research Seminar Series 2021 - 2022

Seminars are Tuesdays at 11:00AM. Location is noted for each seminar. Zoom links are included.

November 16, 2021

Gabriel Núñez, MD

Paul de Kruif Professor of Pathology, Department of Pathology University of Michigan

Host-Microbiota Interactions in Health and Disease

Seminar will be online livestream only.

February 15, 2022

Andreas Bäumler, PhD

Professor, Vice Chair of Research, Medical Microbiology and Immunology, University of California, Davis

The Microbiome and Gut Homeostasis

Seminar will be online livestream only.

February 20, 2024

Erika Claud, MD

Professor, Department of Pediatrics, Director of Neonatology Research

Professor, Grossman Center for Quantitative Biology and Human Behavior

Inaugural Director, Center for the Science of Early Trajectories (SET)

University of Chicago and Comer Children's Hospital

The Microbiome and the Preterm Infant: Looking beyond Necrotizing Enterocolitis

Seminar will be online livestream only.

Please contact the Center for Microbiome Research for
