Reach Out and Read-Milwaukee

What is Reach Out and Read?
A national, medically based early literacy program that promotes a love of books and reading, for every child’s’ healthy development and future.

What would I be doing?
Be placed in a pediatric clinic waiting room, in the Reach Out and Read-Milwaukee Literacy area. Read to and with children, interact with families, give children a gently used book to take home, and engage children in with a variety arts & crafts, games-relating to books or literacy.

Where could I do this? There are 8 pediatric clinics sites participating in Reach Out and Read-Milwaukee. All serve low-income families. You may choose from the following:

Midtown Clinic
- 5433 W. Fond Du Lac Ave

Sixteenth Street Community Health Center Clinics
- 1032 S. 16th Street
- 2906 S 20th St

Next Door Pediatrics
- 2561 N 29th Street

Martin Luther King Heritage Health Center
- 2555 N. Martin Luther Ling Drive

When could I do this? Monday thru Friday 8am-11:30am, some clinics have evening and Saturday urgent care hours.

What are the requirements?
You must have a TB test, proof of childhood immunizations (MMR), a background check and orientation.

What else?
Have fun! Reach Out and Read-Milwaukee is a joint program of Children’s Hospital of Wisconsin and the Medical College of Wisconsin.
