SURVEY QUESTIONS
- In the previous survey you reported the following community engaged education activity:
- Did you continue with this activity in the last year?
- In the section below, please report any new activities - apart from those listed above - that occurred within the last year.
- In the last year, were you involved in any community engaged coursework or service-learning? Note that your involvement could have been as a student, participant, mentor, instructor, etc.
- Name or brief description of education activity:
- Your role in education activity: CME trainee; Instructor; Lecturer; Mentor; Student; Other
- Do you have another education activity to report?

Section 4. Community Engaged Research

DEFINITIONS & EXAMPLES
Please refer to the definitions below which have been adapted for the purpose of this survey.
• **Community-Based Participatory Research (CBPR):** A collaborative approach to research that equitably involves, for example, community members, organizational representatives, and researchers in all aspects of the research process.4

• **Community Engaged Research (CEnR)...** requires academic members to become part of the community and community members to become part of the research team, thereby creating a unique working and learning environment before, during, and after the research.5

SURVEY QUESTIONS

- In the previous survey you reported the following community engaged research activity:
- Did you continue with this activity in the last year?
- In the section below, please report any new activities - apart from those listed above - that occurred within the last year.
- During the last year, did you participate in any community engaged research activities?
- Research project title
- Please indicate the community partner(s) on this project:
- Please indicate the funding source(s) supporting this project, if any:
- Do you have another CE research activity to report?

Section 5. Community Engaged Clinical Care

DEFINITIONS & EXAMPLES

- Patient-centered clinical care in the context of family and community
- Clinical care that is sensitive to the particular needs of the populations served in order to improve credibility among the community1
- Program designed to foster and support the integration of patient care with patients and community groups
- Examples:
  - working in a free clinic
  - participating in volunteer medical missions
  - providing free health screenings
  - providing care at reduced cost
  - involvement in access programs that address financial and other barriers to healthcare
  - change in approach or decision-making due to collaborator input

SURVEY QUESTIONS

- In the previous survey you reported the following community engaged research activity:
- Did you continue with this activity in the last year?
- In the section below, please report any new activities - apart from those listed above - that occurred within the last year.
- During the last year, did you participate in any community engaged clinical care program or activity?
- Name or brief description of clinical care program:
- Please indicate the primary population the program targets:
- Did you participate in another community engaged clinical care program?
Section 6. Community Engaged Policy and Advocacy

DEFINITIONS & EXAMPLES
Please refer to the definitions below which have been adapted for the purpose of this survey.6

- **Policy work** can involve...
  - development of policy statements and recommendations
  - providing policymakers and other state officials, such as health department staff, more insight into identifying the values, ideas and recommendations of the communities that they serve.
  - work so that residents have a better understanding of an issue and its impact, leading to greater community ownership for the initiative.

- **Advocacy** can include...
  - targeted action directed at changing the policies, positions or programs at any type of institution, at any level, and encompasses a broad range of activities
  - educating leaders, policymakers or administrators who implement policies
  - alterations to existing policies, laws and budgets
  - development of new programs
  - creating more open dialogue with decision-makers

- **Examples**:
  - serve on a government advisory board for healthcare policy
  - provide policymakers with background information needed to write legislation or proclamations
  - submit a letter to the editor that results in some impact
  - write a policy statement

6. Adapted from: A Path to Policy: A Blueprint for Community Engagement and Advocacy (PDF)
