INTERNATIONAL EMERGENCY MEDICAL SERVICES AND DISASTER MEDICINE FELLOWSHIP

“This comprehensive yet flexible program allows fellows to gain experiences and leadership skills in every aspect of pre-hospital care in order to achieve their individual goals and become knowledgeable EMS physicians in the future.”

Dr. Montinee Sangtian; Thailand

- Comprehensive but flexible didactic and experiential curriculum of varying length (typically 1 or 2 years but shorter-term options also available, if interested)
- Involves EMS–related research, mentorship, hands-on experience, and opportunities for formal graduate level education at MCW

"Fantastic exposure to all aspects of pre-hospital emergency care-resuscitation, research emergency preparedness, tactical EMS, mass gathering medicine, medical control & oversight in one of the best EMS systems in North America under guidance by eminent, kind, friendly team of medical directors" Dr. Michael Chia; Singapore

For licensed global physicians, who have completed the equivalent of an emergency medicine residency program, and are sponsored by their employer or other entity

Past fellows have been from China, Poland, Saudi Arabia, Singapore, Taiwan, Ukraine

INTERNATIONAL EMERGENCY MEDICAL SERVICES AND DISASTER MEDICINE FELLOWSHIP

This long-term fellowship (non-ACGME approved) provides education and experience in the practice and administration of EMS systems to prepare global EMS physicians for a career of leadership in pre-hospital care, as trainees learn to understand the functioning, designs, and processes necessary to ensure the quality of safe and efficient delivery of patient care in the pre-hospital settings.
