Topics of Interest - Clinical Practice Update Sessions
The 40th Forum for Behavioral Science in Family Medicine

Clinical Practice Updates are one hour sessions which provide clinicians with updates on diagnosing and treating problems seen in practice. They are not “how to teach” sessions. The Forum’s program committee invites early submissions of potential topics for preliminary review. The committee can accept up to six topics in this category.

Broad Topic Areas

Psychopharmacology Updates for various DSM-5 Disorders
Pediatric Issues
Chronic Disease Management

Focused Topics

Suicide
Opiate Use/Abuse
Trauma Informed Care
Childhood Depression

Recent Presentation Topics (2016 - 2018)
Pediatric Sleep Disorders
Tobacco Cessation
ADHD: Youth; Adults
Obesity
Grief
Forensic Issues
Trauma (PTSD)
School Refusal
Suicide in Older Adults
Opioids and Pain Management
Family and Parental Mental Illness
Emotions in the Perinatal Population
Infertility
Dementia
Childhood Anxiety
Sleep Disorders: Narcolepsy; Insomnia
