NP/PA Adult Critical Care Fellowship
Office of Advanced Practice Providers

What Is the NP/PA Critical Care Fellowship?

- An innovative 12-month training program that teaches APP fellows to become highly skilled in the multidisciplinary, collaborative, and evidence-based management of complex and critically-ill patients in intensive care units.
- Attracts NPs and PAs seeking a structured educational program to support and guide their development of proficient clinical decision making and their application of specialized skills in the care of the critically ill through in-person didactics, online classrooms, simulation, proctored procedures, and mentored clinical experiences.

Why a choose a critical care fellowship?

- Structured experiences are great for new graduates or transitioning to a new practice area.
- Mentored learning in mentored clinical rotations:
  - Critical Care Anesthesia - CVICU
  - Critical Care Medicine - MICU
  - Critical Care Neurology - NICU
  - Critical Care Surgery - SICU
  - Solid Organ Transplant Critical Care - TICU
  - Palliative Care
  - Infectious Diseases
  - Procedure service
  - Electives
- Additional fellowship professional development opportunities
- APP fellows receive stipend, educational funds, standard MCW APP benefits, and post-fellowship recruitment incentives

Start Date

- March and September Annually
- Up to 2 Fellows each cohort
