New Grant Opportunities

April 16, 2020

NEW GRANTS

Health

HHS/ Centers for Disease Control - OSTLTS
Strengthening Public Health Systems and Services through National Partnerships to Improve and Protect the Nation’s Health
Funding Opportunity Number: CDC-RFA-OT18-18020301SUPP20
Application Deadline: May 14, 2020
Estimated Maximum Total Value: $250,000
Maximum Total Value Per Award: $15,000,000
Estimated Number of Awards: 40
Summary
The purposes of the program described within the supplemental NOFO are to strengthen the nation’s public health infrastructure; ensure a competent, current, and connected public health system; and improve delivery of essential public health services through capacity-building assistance (CBA).

HHS/ Health Resources and Services Administration
Improving Care and Treatment Coordination: Focusing on Black Women with HIV – Demonstration Sites
Funding Opportunity Number: HRSA-20-116
Application Deadline: Jun 15, 2020
Estimated Maximum Total Value: $2,170,000
Maximum Total Value Per Award: $310,000
Estimated Number of Awards: 7
Summary
This notice announces the opportunity to apply for fiscal year (FY) 2020 funding under the Improving Care and Treatment Coordination: Focusing on Black Women with HIV – Demonstration Sites. Funding awarded under this announcement will support up to seven cooperative agreements for up to three years to design, implement, and evaluate the use of bundled interventions for Black women with HIV

HHS/ Health Resources and Services Administration
Building Capacity to Implement Rapid Antiretroviral Therapy (ART) Start for Improved Care Engagement in the Ryan White HIV/AIDS Program – Evaluation and Technical Assistance Provider
Funding Opportunity Number: HRSA-20-113

Legislative and Executive Branch Solutions | Strategic Communications | Coalition Building | Intelligence Gathering
Application Deadline: Jun 15, 2020
Estimated Maximum Total Value: $700,000
Estimated Number of Awards: 1

Summary
In support of the Ending the HIV Epidemic (EHE): A Plan for America Initiative, the purpose of this program is to support a single organization that provides evaluation and technical assistance (TA) to up to 10 implementation sites (funded separately under announcement number HRSA-20-114). The awarded ETAP organization will evaluate the implementation of rapid start interventions and their outcomes on the HIV care continuum for future replication and scale-up in other Ryan White HIV/AIDS Program (RWHAP) provider organizations.

National Institutes of Health/ National Cancer Institute
Strengthening Institutional Capacity to Conduct Global Cancer Research in Low- and Middle-Income Countries (D43 Clinical Trial Not Allowed)
Funding Opportunity Number: RFA-CA-20-031
Application Deadline: Jun 24, 2021
Maximum Total Value Per Award: $250,000
Estimated Number of Awards: 4

Summary
The long-term goal of this initiative is to build research capacity of investigators and health professionals who can develop the scientific expertise and leadership skills needed to conduct innovative and collaborative global research projects that will contribute to the advancement of basic, clinical, translational, and population-based cancer research. This initiative will support mentored training of both the U.S. and LMIC scientists and the development of multidisciplinary training curricula to address specific cancer research needs and opportunities in LMICs.

National Institutes of Health/ National Cancer Institute
New Informatics Tools and Methods to Enhance U.S. Cancer Surveillance Research (U01 Clinical Trial Optional)
Funding Opportunity Number: PAR-20-170
Application Deadline: Jun 06, 2023

Summary
The goal of this Funding Opportunity Announcement (FOA) is to advance surveillance science by supporting the development of new and innovative tools and methods for more efficient, detailed, timely, and accurate data collection and consolidation by cancer registries.

National Institutes of Health/ National Institute of Dental and Craniofacial Research (NIDCR)
Research on Myalgic Encephalomyelitis/Chronic Fatigue Syndrome (ME/CFS) (R01 Clinical Trials Not Allowed)
Funding Opportunity Number: PAR-20-165
Application Deadline: Mar 05, 2023

Summary
The purpose of this Funding Opportunity Announcement (FOA) is to stimulate new research on myalgic encephalomyelitis/chronic fatigue syndrome (ME/CFS) that will identify etiologies, study pathophysiology and
disease manifestations, develop new methods for diagnosis, and/or characterize the heterogeneity seen between individuals with ME/CFS.

National Institutes of Health/ National Institute of Biomedical Imaging and Bioengineering
National Centers for Biomedical Imaging and Bioengineering (NCBIB) (P41 Clinical Trials Optional)
Funding Opportunity Number: PAR-20-169
Application Deadline: May 07, 2023
Summary
The National Institute of Biomedical Imaging and Bioengineering (NIBIB) uses the P41 mechanism to support National Centers for Biomedical Imaging and Bioengineering (NCBIB) to accelerate the development and dissemination of new biomedical technology. It is expected that each Center would have a nationwide impact. NCBIB create critical and unique technologies that are at the forefront of their respective fields and apply these technologies to a broad range of basic, translational, and/or clinical research

National Institutes of Health/ National Institute of Allergy and Infectious Diseases
Clinical Trials in Organ Transplantation in Children and Adults (CTOT-CA) (U01 Clinical Trial Optional
Funding Opportunity Number: RFA-AI-20-029
Application Deadline: Oct 09, 2020
Summary
The purpose of this Funding Opportunity Announcement (FOA) is to solicit applications to participate in a clinical studies/clinical trials program to improve outcomes of recipients of thoracic or abdominal organ transplants, vascularized composite allografts (VCA), or cell replacement allografts (e.g., pancreatic islet or hepatocyte transplants). The goals of this research will be to improve our understanding of immune-mediated causes of morbidity and mortality in transplant recipients, evaluate interventions to address them, and ultimately improve transplant outcomes

National Institutes of Health/ National Institute of Mental Health
Post-Acute Interventions for the Treatment of Anorexia Nervosa (R34 Clinical Trial Required)
Funding Opportunity Number: RFA-MH-20-500
Application Deadline: Jun 15, 2021
Estimated Maximum Total Value: $2,000,000
Maximum Total Value Per Award: $225,000
Estimated Number of Awards: 8
Summary
This Funding Opportunity Announcement (FOA) encourages research that focuses on refining and pilot testing psychosocial, pharmacological, or somatic interventions, alone or in combination/sequence, delivered during the post-acute treatment period (i.e., following weight restoration or other study-defined clinical endpoints for the acute treatment phase, such as discharge from an inpatient program or other intensive services).

National Institutes of Health/ National Institute of Mental Health

Legislative and Executive Branch Solutions | Strategic Communications | Coalition Building | Intelligence Gathering
Lasker Clinical Research Scholars Program (Si2/R00 Clinical Trial Optional)

Funding Opportunity Number: PAR-20-167
Application Deadline: Aug 28, 2020
Estimated Number of Awards: 5

Summary
The purpose of this program is to foster the development of early stage clinical investigators into fully independent scientists. The NIH funds research and research training at extramural institutions, as well as within the NIH Intramural Research Program (IRP) to support the development of clinical treatments for disease and to improve human health. However, these efforts can be hindered by barriers to clinical and translational research.
