

2-Ingredient Pineapple Angel Food Cake – A Family Fav!

Ingredients

1 box angel food cake mix

1 large can crushed pineapple undrained (about 20 oz)

Instructions

Preheat oven to 350F degrees.

In a large bowl, stir together the dry cake and the entire can of crushed pineapple with juice. Stir well until all the dry mix is incorporated (the mixture will get very foamy).

Pour batter into a 9x13 pan which has been lightly greased with nonstick cooking spray.

Bake at 350F degrees for time specified on the box for size pan. When the sides pull away from pan and toothpick inserted in the center comes out clean, the cake is done. This should take somewhere between 30 and 40 minutes.

Remove from the oven and place on a wire rack to cool.

Serve with a dollop of Cool Whip if you would like 😊 Yummy!
