

Pediatric Simulation Program 2023 Dashboard

Participants

Manikins Used

Trained 3,758 participants

Hosted 618 events and 1,792 event hours

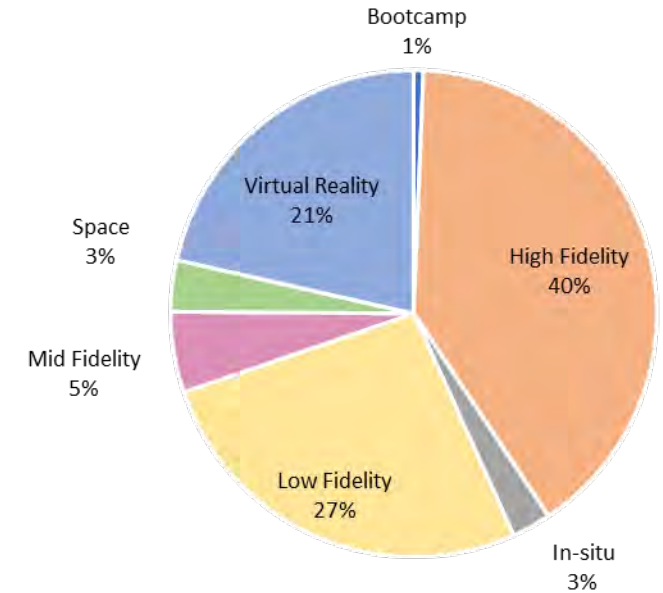

Reached 7 states

Hosted events in the CCC, hospital, ED, and community.

Taught over 15 types of procedures or skills

Event Category

Key:

- Boot camps are intensive 4+ hour events that expose learners to various skills needed to lead and manage rare patient scenarios.
- High Fidelity events use highly realistic manikins i.e., SimBaby, SimMan3G
- Low-Fidelity/task trainer events use task trainers, skills stations, and/or role play.
- *Multidisciplinary participants include a variety of roles such as RN's, RT's, Fellows, NP's, Physicians, PA's, pharmacists, and techs
- "Other" participants include events that did not indicate the type of participants attending
