

# Pediatric Simulation Program Quarter 1 2023 Dashboard

Type of Participants

Total # of Participants
561

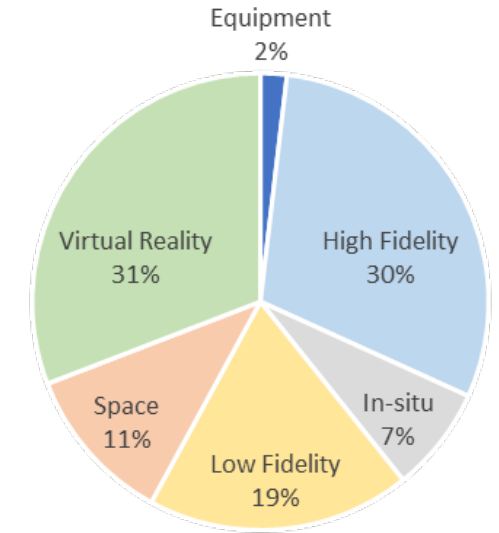

## Skills Taught

Manikins Used

Event Category

Total # of Events
108
Event Hours
231.5

### Key:

- Boot camps are intensive 4+ hour events that expose learners to various skills needed to lead and manage rare patient scenarios.
- High Fidelity events use highly realistic manikins i.e., SimBaby, SimMan3G
- Mid-fidelity events include limited function manikins i.e., Premature Anne, MegaCode Kid
- Low-Fidelity/task trainer events use task trainers, skills stations, and/or role play.
- \*Multidisciplinary participants include a variety of roles such as RN's, RT's, Fellows, NP's, Physicians, PA's, pharmacists, and techs
- Life Support Events not included
