Postdoctoral Program Admissions

Date Program Tables are updated: 5/30/2025

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:
<p>Qualified applicants must have graduated from an APA-accredited graduate program in clinical or counseling psychology and should have all degree requirements completed and a degree conferred prior to the start of the Clinical Health Psychology Fellowship Program.</p> <p>Applicants interested in practicing health psychology and behavioral medicine in a clinic, hospital, or academic medical setting and those interested in board certification in Clinical Health Psychology will be preferred. A preferred candidate would have a breadth of experience in general adult mental health (assessment, testing, and therapy) as well as at least one practicum in a health setting and internship/residency with clinical experience in health psychology. Candidates with multiple health psychology training experiences will be most competitive. Applicants will need to have significant experience working with adults and patients with a comorbid medical diagnosis. Relevant health psychology research is considered during the selection process, particularly as it pertains to population health; however, clinical experience is more heavily weighed.</p>

Describe any other required minimum criteria used to screen applicants:**Required qualifications:**

- Completion of a PhD or PsyD (degree conferred prior to fellowship start) from an APA-accredited doctoral program in clinical or counseling psychology with APA-Accredited Internship
- Strong core clinical of counseling psychology psychotherapy and assessment experience
- Interest in health Psychology and past training (internship/practicum in health psychology

Preferred qualifications:

- Interested in pursuing board certification in Clinical Health Psychology
- Experience with adults, empirically validated treatment and health psychology behavioral interventions
- Strong assessment background with experience in health psychology assessment
