

OnCore Communication Memo

Memo #: 15 – Redefining Oncology Group

To: Research Managers and CTO-AD

From: System Administrator

Effective Date: May 23, 2014

Purpose: For reporting purposes Oncology Group should reflect the FRC, not the Disease Team.

Notes: When running certain reports for Oncology Group the DT is captured but does not reflect the actual Oncology Group (or Cancer Specific Program/FRC). Therefore, please **STOP** including the DT under the Oncology Group (PC Console>Main>Management tab) and only select the main Management Group (still indicate as Primary). DT should still be added to the Management Group.
