

The Milton A. Lunda Trauma Visiting Professor

Milton A. Lunda of the Lunda Construction Company, aware of the effects of trauma on his family, his community, and the employees of his construction company who work in several states, felt the need to promote trauma awareness and care. Working with the American Trauma Society, he commissioned a recognition award and a Visiting Professorship. The award is presented to organizations, agencies and individuals that demonstrate their commitment to improving emergency medicine by giving of their time, talent, and resources. The Lunda Trauma Visiting Professorship is presented at CLINIC DAY to promote research and continuing education.
