

## Educational Technology Corner | February 2022

The February 2022 Educational Technology Corner offers fresh tech tips on everything from Qualtrics, Brightspace and Acadicus Virtual Reality.

### Tech Tips

Brightspace [Quizzes](#), [Self-Assessments](#), [Surveys](#)... What is the difference? Click on the inline links for an overview of each tool.

You can receive Qualtrics updates! [Check out the update page](#).

A reminder – Qualtrics support is available via the Authenticated support page.

### Qualtrics Authenticated User Support

After logging into Qualtrics, access support by clicking on the **Help Tab**

Choose the **Support Site Button**

- You will be presented with a Qualtrics support menu.
- Key in your search terms to seek Knowledge Base support.
- If you are unable to solve your issue in the Knowledge Base, scroll to the bottom of the next page, click on **Contact Support**
  - Enter your **MCW Email** (1) and **MCW Password** (2)
  - Click **Sign in with SSO** (3)
  - Enter **MCWISC** on the next box
  - Click **Continue**

You now have access to the Qualtrics Support Team, and can send email or initiate chat.

### Brightspace

Video: [January 2022 Release Highlights](#)

#### Course Import/Export

- To simplify user access to import/export logs, the Course Import/Export tool now includes import/export logs as part of the Course Import/Export History, which include navigation breadcrumbs. In addition, the logs display the results in the order of import/export operations. Previously, import/export logs opened in a new tab and displayed the results out of order, without navigation breadcrumbs.

#### Discussions

- As described in the **Discussions - New Discussion Evaluation Experience | Updated** feature released in [December 2021/20.21.12](#), this feature removes the **d2l.Tools.Activities.CEDiscussionOptIn** configuration variable. This means that administrators can no longer override the variable to opt-out of the new Discussions Evaluation experience.

### Acadicus Virtual Reality

Over the past year, OEI has been working on virtual reality in medical education. Partnered with the [Acadicus platform](#), We have access to pre-built scenes, or we can custom built scenes. Scenes include anatomy. Emergency room simulations, pediatric simulations, and emergency response simulations. The [National Institutes of Health](#) has published an article from the Royal College of Physicians on the pros and cons of virtual reality in medical education. We would love to give you a tour of the Academy kiss

sweet and what we have to offer. Please contact [educational\\_improvement@mcw.edu](mailto:educational_improvement@mcw.edu) for a tour of the Acadicus platform, And brainstorming on how we can add this to your class.
