Get the latest updates on educational technology, including Brightspace, TopHat and more.

Tech Tips
Tip: As Brightspace users, everyone is welcome and encouraged to create a Brightspace Community account.

Brightspace
Brightspace Updates September 2019

New login process for Legacy D2L

If you use the Legacy D2L instance for non-Academic training, you will notice that the process to login now includes the **MCW OneLogin** tool. This process is very similar to the Qualtrics login.

Start by clicking on the D2L icon on InfoScope.

This will take you to the OneLogin interface, where you will enter your MCW Username and MCW password.

You will then land at the traditional OneLogin Menu.

Click on the D2L Icon to pass through to D2L.

Off campus access will require use of the DUO app.

Top Hat
Some of the exciting updates in the Top Hat Gradebook include:

- Student Response Modals
- Points or Percentage

For more information on all the great features available to you in the new gradebook, please see Professor: New Gradebook Overview.

Aquifer
MCW's Aquifer subscription offers the flexibility of either custom designed or signature courses, to help enhance your course.

Signature courses include:

- Diagnostic Excellence
- Family Medicine
- High Value Care
- Internal Medicine

- Medical Home
- Oral Presentation Skills
- Pediatrics
- Radiology

For more information or an introduction to the Aquifer content and interface, email lmshelp@mcw.edu. A technologist or designer will set up time with you to answer questions.
