Continue your Post-Graduate education at the Medical College of Wisconsin (MCW) School of Pharmacy, based at a robust academic medical campus with a demonstrated commitment to improve health and reduce disparities.

PGY1 community-based pharmacy residency programs build on the Doctor of Pharmacy (PharmD) education and outcomes to develop community-based pharmacist practitioners with diverse patient care, leadership, and educational skills who are eligible to pursue advanced training opportunities including postgraduate year two (PGY2) residencies and professional certifications.

The MCW School of Pharmacy is seeking qualified candidates for a Post-Graduate Year 1 Resident in Community-Based Pharmacy Residency. The 1-year full-time residency, beginning on July 1 is based at the MCW School of Pharmacy with a clinical practice site at Evergreen Pharmacy.

Participate in intensive patient care and faculty development experiences that will prepare you as a community-based primary care pharmacist and academic leader, to ensure access to high quality, innovative primary care services, reduce health disparities and promote community wellness. We’ll prepare you for a successful community based pharmacy and academic career, with:

- Progressive practice sites to develop the pharmacist of the future
- Participation in comprehensive patient care, including medication therapy management (MTM), physical assessment, and immunizations and other injectable medication experience
- Certifications including: Teaching Certificate, WPQC (MTM) Training, NACDS Point of Care Testing, Physical Assessment Training, Mental Health First Aid Training, and more
- Academic experience through didactic, practical and experiential education

You will address social and economic determinants of health, and work to optimize delivery of care to patients in the community. Collaborate directly with interprofessional health care providers and scientists with expertise in population health management, patient-centered care and chronic disease state management.

Please contact Sara Revolinski, PharmD, Residency Program Director with questions: srevolin@mcw.edu

**QUALIFICATIONS**

- Doctor of Pharmacy Degree
- Eligibility for licensure to practice pharmacy in the state of Wisconsin
- Commitment to a career in community-based pharmacy practice
- Residents must be U.S. citizens or permanent residents
Committed to Community Service

We are honored to be a part of each patient’s life and we take steps to support our community. Each month we sponsor a charitable cause suggested by one of our team members. Together we can make a difference in our community.

MISSION

Improve the lives of our patients by continuously redefining conventional practices.

VISION

Promote ambulatory care pharmacists in the community through training and delivery of diverse care services. Empower pharmacy technicians to expand their roles within our organization and to advance professionally.
