

Post-Graduate Year 1 Resident in Community-Based Pharmacy Residency - Sixteenth Street Community Health Center and altScripts Specialty Pharmacy

Continue your Post-Graduate education at the Medical College of Wisconsin (MCW) School of Pharmacy, based at a robust academic medical campus with a demonstrated commitment to improve health and reduce disparities.

The MCW School of Pharmacy is seeking qualified candidates for a Post-Graduate Year 1 Resident in Community-Based Pharmacy Residency. The 1-year full-time residency, beginning in July, is based at the MCW School of Pharmacy with a clinical practice site at Sixteenth Street Community Health Center and altScripts Specialty Pharmacy.

Participate in intensive patient care and faculty development experiences that will prepare you as a community-based primary care pharmacist and academic leader, to ensure access to high quality, innovative primary care services, reduce health disparities and promote community wellness. We'll prepare you for a successful community based pharmacy and academic career, with:

- Progressive practice sites to develop the pharmacist of the future
- Participation in comprehensive patient care, including medication therapy management (MTM), physical assessment, and immunizations and other injectable medication experience
- Academic experience through didactic, practical and experiential education
- Certifications including: Teaching Certificate, WPQC (MTM) Training, NACDS Point of Care Testing, Physical Assessment Training, Mental Health First Aid Training, and more

You will address social and economic determinants of health, and work to optimize delivery of care to patients in the community. Collaborate directly with interprofessional health care providers and scientists with expertise in population health management, patient-centered care and chronic disease state management.

Residents hold a faculty appointment at the rank of Instructor, and receive:

- A competitive stipend and benefits, including health coverage, paid holidays, vacation and personal days
- Travel funds
- Support of a network of productive faculty and peers
- Individualized clinical and teaching experiences, research training, and mentorship to meet your unique needs and interests

➤ QUALIFICATIONS

- Doctor of Pharmacy Degree
- Eligibility for licensure to practice pharmacy in the state of Wisconsin
- Commitment to a career in community-based pharmacy practice
- Spanish language proficiency is required for this role
- Residents must be U.S. citizens or permanent residents

› SIXTEENTH STREET COMMUNITY HEALTH CENTER

Building a Healthy Community

Sixteenth Street Community Health Centers (SSCHC) has proudly cared for the south side of Milwaukee and Waukesha for over 50 years. Being at the heart of our healthy communities, we provide the highest quality medical, behavioral health, and substance use care to every person who walks through our doors. But what separates our care is the deep understanding of social determinants of health and the years of development of programming to address these factors, both inside and beyond our clinic walls. We meet people where they live, work, learn, and play through proactive social services screening in our clinics, specialized diabetes and asthma programming, obesity intervention and prevention, and environmental programming to create resident-directed impact in the built and natural environment where our patients are. Through full-service bilingual clinics, a behavioral health clinic, a satellite geriatric clinic, and six in-school clinics, Sixteenth Street cares for nearly 43,000 primarily low-income, Latinx or diverse individuals each year.

The clinical pharmacy team at SSCHC works closely with the caregivers throughout the organization. Clinical pharmacy services include patient visits under collaborative practice agreements, Medicare Annual Wellness Visits, medication reconciliations, managing our 340B drug pricing program formulary, and being a resource to our clinic staff for any and all clinical pharmacy questions or concerns.

› ALTSCRIPTS SPECIALTY PHARMACY

The altScripts Specialty Pharmacy team offers a patient-centered care model.

Established in 2015, altScripts Specialty Pharmacy offers a patient-centered care model, providing specialty services to patients and health care providers, to simplify complex medication therapies, enabling optimal results and ensuring patients receive quality, timely care. As patient advocates, we take a personal approach to provide optimal therapy and affordable solutions to what is otherwise considered high cost treatment.

WHAT MAKES MCW UNIQUE

New knowledge changes everything, from a single life to an entire community.

At the core of everything we do at the Medical College of Wisconsin (MCW) is the pursuit of new knowledge and the power of academic medicine. Bringing together the world's top scientists and clinicians, inspired students and invested communities, we are driven to solve the most complex challenges in health and society. MCW is home to a diverse group of thought leaders collaborating to build a healthier world and a continuous cycle of life-changing knowledge.
