JOIN THE CONVERSATION
A ROOM WITH A VIEW:
ALCOHOL AND INJURY

Join two Emergency Physicians and the Director of the Wisconsin Alcohol Policy Project (WisAPP) on the significant role that alcohol plays in our society and how it is often a factor in injuries and fatalities. Learn about injury science and discuss how alcohol impacts the person drinking, as well as others, including children. The conversations will elicit strategies to help reduce alcohol’s impact in your community.

Stephen Hargarten, MD, MPH
Professor, Emergency Medicine
Senior Injury and Policy Advisor
Comprehensive Injury Center
Medical College of Wisconsin

Michael Levas, MD, MS
Associate Professor of Pediatrics
