Janet Schlechte, MD
Emeritus Professor of Medicine,
University of Iowa
Iowa City, Iowa

Objectives:

⇒ What is the evidence that cure of a prolactinoma is feasible following treatment with a dopamine agonist?
⇒ What are the reproductive, cardiac and neurologic consequences of long term dopamine agonist therapy?
⇒ How long to treat and how to safely withdraw established dopamine agonist therapy?
⇒ How to manage an aggressive prolactinoma that is resistant to dopamine agonist therapy?
⇒ What are the reproductive, cardiac and neurologic consequences of long term, high dose dopamine agonist

Accreditation Statement
The Medical College of Wisconsin is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians

Designation of Credit Statement
The Medical College of Wisconsin designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity

Hours of Participation for Allied Health Professionals
The Medical College of Wisconsin designates this activity for up to 1.0 hours of participation for continuing education for allied health professionals.
