Ross Milner, MD
Professor of Surgery
Co-Director, Center for Aortic Diseases
University of Chicago

Ross Milner, MD is an internationally recognized leader in vascular surgery, with expertise in the treatment of complex aortic disease.

As the Marco Polo Fellow of the Society for Vascular Surgery, Dr. Milner studied the use of remote pressure sensor monitoring for surveillance after endovascular aortic aneurysm repair at the University Medical Center of Utrecht, The Netherlands. He has directed numerous clinical trials to evaluate endovascular devices for thoracic aortic disease and abdominal aortic aneurysms, and is the co-national principal investigator for the multi-institutional GREAT registry, which evaluates the clinical outcomes of aortic endovascular interventions. He is the Director of the University of Chicago Center for Aortic Diseases.

At the Pritzker School of Medicine, where he is Professor of Surgery, Dr. Milner has been recognized as the first Master Clinician of the Bucksbaum Institute for Clinical Excellence. He is a champion of recruiting young scholars into the field of medicine and for promoting professionalism in graduate medical education. He has a long history of annual recognition for excellence in teaching.
