3rd Wednesday of the Month- In Person*

(*subject to change based on speaker availability. zoom also available)

This is a series of didactic presentations related to the complexities of the provision of mental health services including the diagnosis and treatment of mental health disorders; presentation of evidenced-based research; ethical and clinical nuances in patient care; and new and emerging interventions and data.

Keywords: mental health, behavioral health, psychology

Door County Summer Institute

The format of the Door County Summer Institute is conducive to learning. Our seminars will address gaps in clinical knowledge and skills. In addition to didactic presentations, our workshops incorporate clinical case presentations and discussions. All provide the opportunity to interact with the instructor, promoting an active learning experience. The multi-day format also permits the consolidation of learning. Finally, the location of Door County facilitates the restoration of the soul.

All Sessions are scheduled to occur in the mornings only, (8:30 am to 12:15 pm), leaving participants and their family members the afternoons free to explore the wonders of Door County. All seminars are held at the Landmark Resort in Egg Harbor, WI.

These advanced seminars are directed to mental health and health professionals. We hope you can join us. Bring your family with you!

The Periscope Project Educational Webinar Series

Coming in 2024, perinatal psychiatric continue education series. [The Periscope Project](#) is a free resource for health care professionals treating pregnant and postpartum patients in Wisconsin. The Periscope Project aims to educate providers through live educational webinars, online toolkit, and video-based modules. [Learn more](#) about educational opportunities from The Periscope Project.

Keywords: Behavior and Behavior Mechanisms, Psychological Phenomena, Mental Disorders, Behavioral Disciplines and Activities, Peripartum Period, Postpartum Period, Maternal Behavior

Suicide Symposium

The MCW Psychiatry & Behavioral Health department's biennial Suicide Symposium offers a safe, structured environment where trainees and mental health practitioners can obtain collegial support and education to reduce the stigma surrounding patient suicide.

The symposium was graciously funded by the Faye McBeath Foundation. Heir of the Milwaukee Journal Company, Ms. McBeath established the Foundation in the 1960s. In addition to this generous donation, faculty and residents who have lost a patient and were willing to share their experiences have played a vital role in making this project possible.

The Biennial conference returns in Spring 2025.

This advanced program highlights the latest information in the diagnosis and treatment of mental disorders and the newest research areas in clinical psychiatry.
