“I have attended the MCW Threat Assessment and Management training and have sent several of my department leaders. Sheridan and Jonathan’s work on this educational program effectively combines the processes and reasoning from threat assessment experts in the field and the application of this work to the unique healthcare conditions we work within. This training was well worth our time and has effectively driven our work in resolving threats and being able to effectively explain our rationale for each action.”

Healthcare Safety & Security Director, 2015 & 2017 attendee

“I would highly recommend the TA&M Conference to any person who has a role in protecting hospital staff. I left with multiple actionable items that will immediately improve our threat assessment and threat management activities. In addition, the conference itself is purposefully designed and maximizes the return on investment----I will definitely be back (even if I am paying out of pocket).”

“I am a Security Specialist and part of my responsibilities are the coordination and activation of a Threat Assessment Team. I attended the 2017 Threat Assessment & Management with a Healthcare Focus conference. Sheridan Ryan and Jonathan Wertz put on a

fantastic program with top notch speakers/instructors of national fame. I would highly recommend that anyone who has a responsibility or interest in Threat Assessment attend one of these seminars. The information is presented in an extremely professional and easily understandable manner.”
