knowledge changing life

Dr. Pryor is Professor and Vice Chair of Surgery at Stony Brook. She grew up in Ann Arbor, Michigan and received her undergrad degree in engineering and her MD from Duke University. She completed her residency in General Surgery at Duke, followed by a fellowship in minimally invasive surgery. She was on the faculty at Duke from 2003-2011. While at Duke, she served as Co-Director of the Metabolic and Weight Loss Surgery Program at Duke and as Chief of General Surgery at Durham Regional Hospital. She was associate director of the Duke residency and the Duke MIS/bariatric fellowship program director. Moving to New York in 2011, she now serves as Vice Chair of Surgery, Chief of Bariatric, Foregut and Advanced GI Surgery and Director of the Bariatric and Metabolic Weight Loss Center at Stony Brook. She is also director of the Advanced GI/MIS/Bariatric fellowship at Stony Brook. Her clinical practice includes bariatrics, general GI surgery, foregut and hernia.
